RS 8

The convincing extra safety

Advantages

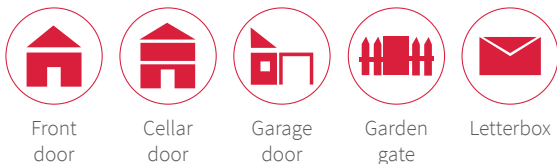

- High safety
- High key copy protection
- VdS BZ approval

RS 8

Complete protection with only one key

Even tried-and-trusted locking technology remains a challenge for us – to improve it even further. Result: The RS 8 system: Maximum possible resistance values guarantee the reassuring feeling that you have secured doors and accesses outstandingly well. In the literal sense, because a new technology with lateral control and stabilisation ribs gives the key a very high level of copy protection.

Front door

Cellar door

Garage door

Garden gate

Letterbox

Advantages

- **HIGH SAFETY**
Up to 14 locking authorisation queries per key make it almost impossible to overcome the cylinder of the locking system.
- **HIGH KEY COPYING PROTECTION**
The additional rib on the side of the key prevents copies of the key being made.
- **VDS BZ APPROVAL**
Maximum possible protection against burglary and unlocking attempts (optional) recognised by an independent testing institute. Condition according to VdS standard.

ALSO AVAILABLE FOR CODED INDIVIDUAL LOCKING (BZ+ MODULAR)

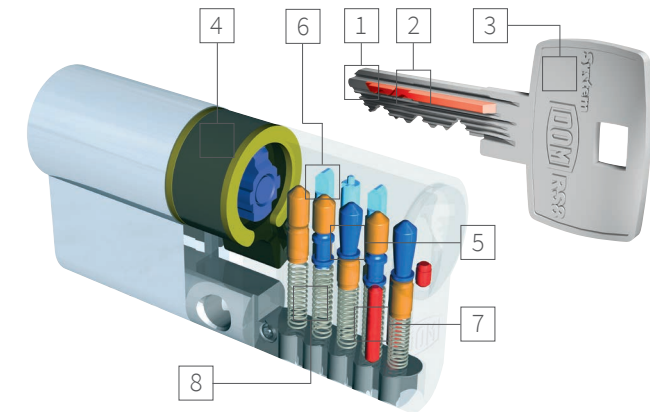

Special variant for one or two-family houses with optimum safety features

There's more safety on the cards.

You get a service card for master key systems with the system RS 8. This is your special added safety! Because this card must be presented to your specialist dealer if you require copies of the keys to be made. So there is really more safety on the cards with the RS 8.

In detail

- 1 **CUT LAYERS MATCHING THE PROFILE**
Protection against key copies
- 2 **COMPLEX CODING IN THE KEY**
Makes it more difficult to copy
- 3 **NEW SILVER KEY**
Corrosion-free and low-wear
- 3 **LOCKING NOSE**
- 5 **8 PIN TUMBLERS MADE OF SPECIAL BRASS / HARDENED STEEL**
Offer manipulation protection against intelligent opening methods and impact protection
- 6 **3 OF WHICH ARE INNOVATIVE PIN TUMBLER PAIRS ARRANGED AXIALLY IN THE SECOND ROW**
- 7 **ENHANCED DRILL-OPEN PROTECTION**
Carbide or hardened steel elements
- 8 **SPRINGS**
Part of the pin tumblers, they move the pins to the correct locking position
